

SAYANTAN GHOSH

IMMEDIATE JOINER | READY TO RELOCATE

Senior Product Designer | Enterprise Strategy & Interaction Systems

Hyderabad, India | +91 9959629041 | ghosh.sayantan1982@gmail.com
Portfolio: uxsayantan.com | LinkedIn: linkedin.com/in/uxsayantan

PROFESSIONAL SUMMARY & CORE EXPERTISE

22+ Years TOTAL EXPERIENCE	9 Years PRODUCT & UX OWNERSHIP	13 Years VISUAL UI & SCREEN SYSTEMS
-------------------------------	-----------------------------------	--

- End-to-End Product Ownership:** Expert at managing features across the entire lifecycle—from parsing user friction data and validating product hypotheses into production-ready responsive layouts.
- Enterprise Complexity Minimization:** Highly skilled in designing data-dense dashboard patterns, control layouts, and application shell environments that transform backend infrastructure into seamless user views.
- Design Systems & Token Architecture:** Designing modular UI kit pattern libraries, responsive grid scaffolds, and programmatic tokens in Figma to preserve layout cohesion and accelerate frontend engineering handoffs.

PRODUCT DESIGN TOOLKIT, METHODOLOGIES & PROCESS

- Design Systems & Prototyping:** Figma, Framer, Programmatic Component Libraries, Variables & Token Engineering, High-Fidelity App Shell Layouts, Sketch, Miro, Anima.
- AI UX & Workflow Tools:** Antigravity, Gemini, Claude, Codex, Open-Design, Google Stitch, Google AI Studio, ChatGPT Plus, Advanced Prompt Engineering.
- Frameworks & Compliance:** Human-Centered Design (HCD), Design Thinking, Lean Product Lifecycles, Analytics, WCAG 2.1 Web Accessibility Guidelines.
- Research & Interaction Architecture:** User Testing, Stakeholder Alignments, Contextual Audits, Heuristic Framework Reviews, Persona Sculpting, Empathy Frameworks, Detailed User Journeys, Information Architecture (IA), Wireframing, App Mapping.

ENTERPRISE PRODUCT DESIGN (RECENT PROJECT HIGHLIGHT)

SmartBI — Enterprise Conversational AI Space Senior Product Designer / Interaction Architect

Core Design Toolkit: Antigravity, Gemini, Claude, Google-Stitch, Codex, Figma

- Architected and mapped the comprehensive product interface layout for an enterprise business intelligence platform that converts complex, multi-layered SQL query paths into a clean conversational natural language user experience.
- Designed responsive visualization layouts that allow non-technical business stakeholders to build real-time charts and data reporting tables effortlessly.
- Built and iterated an interactive component prototyping system to minimize user search-to-insight friction, ensuring strict adherence to responsive behavior patterns, clear information hierarchy, and international accessibility standards.
- Case Study Link:** myprofilesayantan-rgb.github.io/Smart-BI/

PRODUCT DESIGN ARCHIVE (STRATEGIC DEPLOYMENTS)

SENTINEL — Automation PM Product

Senior Product Designer

Designed the interface architecture for a system mapping tool built to clear project friction. Conducted strict operational audits to map and isolate user navigation blocks, generating a component structure that unifies tracking states and context cards neatly.

TRACTO — Elderly Healthcare Suite

Senior Product Designer

Created the UI kits and visual dashboard screens for an integrated data health ecosystem. Refined dense analytical numbers into high-contrast visual dashboard readouts to safeguard usability for limited tech-literacy audiences.

PROFESSIONAL EXPERIENCE PORTFOLIO

TenXengage

Feb 2021 — May 2026

Senior Product Designer / Consultant

- Owned the complete user journey map and layout asset generation lifecycle for global Google and Cisco partner portals; deployed scalable component kits that raised recurring software satisfaction indexes by 15%.

FastCollab

June 2020 — Jan 2021

Senior Product Designer

- Formulated responsive interactive wireframes for an AI financial corporate travel tool; structured intricate ledger logic into clean, predictable multi-step wizard screen sequences.

Ayantek

Apr 2017 — Jan 2020

Senior Product Designer / Consultant

- Spearheaded interaction patterns, interface layouts, and web app shells for dense enterprise B2B client applications, blending strategic product blueprints with clean production layouts.

CodeLogics

Aug 2013 — Apr 2017

Senior Product Designer

- Translated functional product matrices into interactive interface systems and modular layouts, establishing complete layout clarity to prevent developer implementation lag.

Playgames24x7 (RummyCircle)

May 2012 — Sep 2013

Product Designer (UX/UI Specialist)

- Redesigned the primary concurrent multiplayer table UI viewports; optimized viewport control configurations and event trigger spaces to eliminate layout accidental misclicks for millions of online users.

CAREER BLUEPRINT ARCHIVE (2003 — 2012)

HurixDigital (2011-12): Lean UI Designer | RoyTech Software (2008-11): UI Manager & Designer | Freelance Practice (2005-08): User Interface & Web Graphics Asset Deployment | Aforeserve.com (2003-05): Web Designer.

PROFESSIONAL INDUSTRY QUALIFICATIONS

IIT Roorkee — Executive Postgraduate Certification in UI/UX Design (2024-2025)

Specialized in cognitive human behavior patterns, scalable enterprise navigation wireframes, and data display mechanics.

Interaction Design Foundation (IxDF) — AI for Designers Professional Certification (2026)

Specialized in AI-assisted visual layout engineering, predictive interface mechanics, and adaptive component loops.

EDUCATION & TECHNICAL FOUNDATION

- Arena Animation:** Professional Diploma in Web Design & Multi-platform Interactive Media.
- West Bengal Council of Higher Secondary Education:** Commerce (10+2 Standard Academic Framework), 2001.
