MEDIUM WHITEBOARD

22+ Years

TOTAL EXPERIENCE

9 Years

UX STRATEGY

13 Years

VISUAL/UI DESIGN

EXECUTIVE VALUE PROPOSITION

COMPLEXITY REDUCTION

Simplifying multi-layered enterprise workflows for Google & Cisco into intuitive journeys.

STRATEGIC AI INTEGRATION

Implementing Human-Orchestrated AI workflows that reclaim design bandwidth for creative problem-solving.

BUSINESS-DESIGN ALIGNMENT

Translating abstract stakeholder visions into high-impact products that move core business KPIs.

AI UX TOOLKIT & METHODOLOGY

AI ORCHESTRATION

Claude, Gemini, Google AI Studio, ChatGPT Plus, Prompt Engineering for User Research

UX/UI FOUNDATIONS

Figma, Framer, Miro, Sketch, Anima (Design-to-Code), WCAG 2.1 Accessibility

PROFESSIONAL CERTIFICATIONS

IIT ROORKEE | Executive Postgraduate Certification in UI UX Design (2024-25)

Specialization in cognitive psychology, scalable enterprise architecture, and advanced HCD.

IxDF | AI for Designer Professional Certification (2026)

Advanced AI-integrated delivery, LLM prompt engineering, and human-in-the-loop UX.

IxDF | Perception and Memory in HCI and UX

Credential ID: e40d9459-e778-4f6e-aa0f-2a9189302f9c • Issued by IxDF - The Interaction Design Foundation

STRATEGIC CASE STUDIES (INNOVATION PROJECTS)

SENTINEL: AI-Driven Project Management (PM) Tool

Research: EP Formula (Empathetic Prediction) > Workflow Bottleneck Discovery > LLM Logic Orchestration

Developed a human-aware AI orchestration tool designed to automate administrative project management overhead. Utilizing an **Empathetic Prediction (EP) formula**, I mapped high-frequency, low-value administrative “noise” and engineered a system where AI handles context-tracking and reporting via custom LLM logic, allowing creative teams to re-engage with high-level strategic problem-solving.

TRACTO: Elderly Health & Security Care Solution

Application: Real-time Health Monitoring > Smart Emergency Triggers > Intuitive Care Interface

Designed a data-driven health ecosystem for elderly care. I mapped real-time health data to cognitive safety triggers, identifying critical “safety-first” interactions for users with limited tech literacy. The resulting interface prioritizes emergency response and health monitoring through high-contrast, glanceable intelligence that ensures security and peace of mind for seniors and caregivers.

PROFESSIONAL EXPERIENCE

TenXengage

Senior UX Designer / Consultant

Feb 2021 - Present

• **Google & Cisco Partner Ecosystems:** Scaled engagement platforms; engineered role-based UX frameworks driving 15% growth in satisfaction across partner lifecycle processes.

FastCollab

Senior UX Designer

May 2020 - Feb 2021

• Architected an AI-driven **corporate travel and forex solution** platform; simplified complex business logic into usable flows for managing enterprise travel and financial workflows.

Ayantek

Lead UX Designer

Apr 2017 - Jan 2020

• Executed user experience strategy for a diverse B2B SaaS portfolio, ensuring all design outputs were grounded in

intensive user research and core business KPIs.

CodeLogics

Aug 2013 – Apr 2017

Design Manager

- Translated abstract client visions into comprehensive user stories and dev-ready prototypes, reducing lifecycle ambiguity.

Playgames24x7 (RummyCircle)

May 2012 – Sep 2013

Product Designer (Senior Creative)

- **Core Innovation:** Conceptualized the Main Game Table; optimized interaction patterns to minimize cognitive load and “misclicks” for millions of concurrent players.

CAREER EVOLUTION (2003 - 2012)

HurixDigital Lean UI (2011-12) Nat Geo, Star India	RoyTech Software UI Manager (2008-11) iOS & Web
Freelance Creative Services (2005-08) Digital Identity	Aforeserve.com Jr. Web Designer (2003-05) Foundational

EDUCATION & FOUNDATION

- **West Bengal Council of Higher Secondary Education:** Commerce (10+2), 2001
- **Arena Animation:** Diploma in Web & Multimedia
